

Upgrade Your Hardware/Software - Act Now To Stay Protected!

UPGRADE... to Windows 10 now!

Support for Windows 7 has now come to an end. But don't panic! BTLS can help guide you through the process to upgrade to Windows 10.

Here at BT Lancashire Education Services we know how important it is for you to keep your hardware operating smoothly to protect both your school's systems and the sensitive data they hold, especially for your hardware running SIMS.

Why do I need a New Server or Desktop?

- Windows 7 and Windows Server 2008 R1/R2 editions reached **end of life** in January 2020 and is **no longer supported** by Microsoft, with Office 2010 following in October 2020.
- To **future proof** your hardware
- To **maximise security** for Remote Access Users
- **Protect your data** and network for your pupils and parents information
- **Cost effective, speedy** designs that don't compromise on **quality** yet ensure protection and **reliability**
- To ensure your operating systems **comply with Capita's minimum requirement for SIMS.**

See our dedicated [webpage](#) for more details and overleaf for examples of recommended servers.

LICENSING

Your new server will need to be properly licensed for your number of users. Our team will work closely with you to ensure that you are supplied with all appropriate licences.

We have teamed up with Microsoft experts, Phoenix, to offer our school customers a **convenient** and **cost effective** way to purchase the Microsoft Education Desktop bundle licensing for your school, plus add-on licensing for your sever as required.

Replace Your Server - Act Now To Stay Protected!

If you need to replace your server as part of upgrading, BT Lancashire Services can offer suitable devices:

Small School Server

Great for small schools

Small School Server Typical Specification

PowerEdge T140
Intel® Xeon® Processor
Performance Optimized
24GB RAM
3 x 2TB NLSAS HDDs (RAID5)
On-Board Broadcom 5720
Dual Port 1Gb LOM
Smart UPS
5 Year On Site Next Business Day Warranty

Large School Server

Faster and expandable

Large School Server Typical Configuration

PowerEdge T440
Intel® Xeon® Silver Processor
Performance Optimized
32GB RAM
4 x 2.4TB SAS Hot Plug HDDs (RAID5)
Dual-Port 1GbE On-Board LOM
Network Interface Card
Broadcom 5720 Dual Port 1Gb
Network Interface Card
Smart UPS
5 Year On Site Next Business Day Warranty

The PowerEdge T140 is our small range Hypervisor server that delivers on performance at a **competitive price** for schools.

The small Hypervisor has limited expandability, able to have 4 x 3.5 NLSAS drives with fast drive access and up to 64GB RAM.

The server comes with hot plug power supplies no need to power off the server to replace the power supply (only when two power supplies are being used).

Comes either as a tower or rack mounted and is easily configurable for small school's Admin or Curriculum domain servers, or can be configured as a Joint Domain server for **convenient access** to shared resources.

The PowerEdge T440 is a **powerful** Hypervisor server that has a **high performance** to meet the requirements for our larger schools and colleges. A server that is **highly expandable** which will enable the school or college to be **future proof** for many years to come.

Capable of consolidating multiple servers on one device, allow for **flexible and dynamic** server architecture and **maximum security** for remote access users.

Enjoying all of the advantages of separate servers without the footprint or support costs, these systems are ideal for schools or colleges who have an eye on the future.

OPTIONAL SERVICES:

REMOTE BACKUP OPTIONS

This would also be an excellent opportunity to review your current back up arrangements. Tape drives and external hard drives just don't cut it anymore when it comes to protecting your pupil and assessment data. Did you know that BT Lancashire Services offer a **robust and hassle free remote back up service?**

INSTALLATIONS

Use our experts to ensure your new hardware is properly configured for SIMS, your backup, anti-virus and services necessary to run your school.

[RACK MOUNTED SERVER OPTIONS also available](#)
(Domain Servers Only)
